

**Hamilton Township School District
Technological Literacy Curriculum
Grade K**

Standard: 8.1 Computer and Information Literacy

Strand: 4.A Basic Computer Skills and Tools

Progress Indicator: Use basic features of an operating system (e.g., accessing programs, identifying and selecting a printer, finding help).

Recommended Content Area Integration/Activities:

Language Arts

Review computer vocabulary and terminology. Introduce new vocabulary such as desktop, icons, proper use of the mouse, left-click, on, off, ID, password, shutdown, screen.
--

Will be included in all lessons involving technology.

Mathematics

After helping students recognize icon's and the programs they belong to, play a math game that is located on the desktop so they may become more familiar with the numbers on the keyboard. Keyboard: location of the numbers.
--

Science

Use programs related to science (e.g., Bodyland, or The Ultimate Human Body) for students to become more familiar with computers and keyboarding.

Social Studies

Use programs related to social studies for students to become more familiar with computers and keyboarding.

Related Arts

Assessment(s): Teacher observation, worksheets, discussion.

Accommodations for 504, Special Education, and English Language Learners:
